Centre Ground (Action): One unit from your army can start to perform this action at the end of your Movement phase if it is within range of an objective marker labelled A and no enemy units (excluding AIRCRAFT) are within range of that objective marker. The action is completed at the end of your next Command phase so long as the unit performing it is still within range of the same objective marker.
ETERNAL WAR – INCURSION
CROSSFIRE

MISSION BRIEFING
Enemy forces are massing in the area, seeking to secure the battlefield. A direct assault against them may result in unacceptable casualties, but victory can be assured by outflanking the foe and catching them in a deadly crossfire.

Mission Rules
Crossfire: When resolving attacks against target units that are within 9” of the centre of the battlefield, those attacks ignore the benefits of cover provided you can satisfy at least one of the following conditions:

- You control both objective markers labelled A and the attacking model's unit is in range of an objective marker labelled A.
- You control both objective markers labelled B and the attacking model's unit is in range of an objective marker labelled B.

PRIMARY OBJECTIVES
Victory points are awarded for controlling objective markers, as follows:

Take and Hold (Progressive): At the end of each player’s Command phase, the player whose turn it is scores 5 victory points for each of the following conditions they satisfy (for a maximum of 15 victory points):

- They control one or more objective markers.
- They control two or more objective markers.

This secondary objective cannot be scored in the first battle round.
ETERNAL WAR – INCURSION
DIVIDE AND CONQUER

MISSION BRIEFING
The enemy’s advance forces are seeking to expand into our territory, but they risk overextending themselves. If you strike early and capture key battlefield locations you can cause a wedge between the foe’s warriors, divorcing them from their support units and making them easy prey to dispatch as they are.

PRIMARY OBJECTIVES
Victory points are awarded for controlling objective markers, as follows:

- Take and Hold (Progressive): At the end of each player’s Command phase, the player whose turn it is scores 5 victory points for each of the following conditions they satisfy (for a maximum of 15 victory points):
  - They control one or more objective markers.
  - They control two or more objective markers.
  - They control more objective markers than their opponent controls.

This primary objective cannot be scored in the first battle round.

SECONDARY OBJECTIVES
In this mission, when the players are selecting their secondary objectives, they can, if they wish, choose for one of them to be Lines of Demarcation, below.

Lines of Demarcation (Progressive): At the end of your turn, you score 4 victory points if you control both objective markers labelled A, or 2 victory points if you control both objective markers labelled B.
ETERNAL WAR – COMBAT PATROL
ENCIRCLE

MISSION BRIEFING
Both forces have converged on this vital location and a firefight has ensued. Neither side is willing to cede ground, but successfully circumventing the enemy’s position will open up a brutal crossfire leaving the objectives for the taking.

PRIMARY OBJECTIVES
Victory points are awarded for controlling objective markers, as follows:

Take and Hold (Progressive): At the end of each player’s Command phase, the player whose turn it is scores 5 victory points for each of the following conditions they satisfy (for a maximum of 15 victory points):

- They control one or more objective markers.

- They control more objective markers than their opponent controls.

This primary objective cannot be scored in the first battle round.

SECONDARY OBJECTIVES
In this mission, when the players are selecting their secondary objectives, they can, if they wish, choose for one of them to be Encircle, below.

Encircle (Progressive): Score 5 victory points if you have at least one unit from your army (excluding AIRCRAFT) wholly within 6” of your battlefield edge and at least one unit from your army (excluding AIRCRAFT) wholly within 6” of your opponent’s battlefield edge at the end of your turn (score 5 victory points instead if one of these units is also wholly within your opponent’s deployment zone).
ETERNAL WAR – COMBAT PATROL
OUTRIDERS

MISSION BRIEFING
Advance parties have ranged ahead of the main force in preparation for a large push into enemy territory. They must scout the area, fight off enemy patrols and secure key locations that will prove vital to hold in the larger battle to come.

PRIMARY OBJECTIVES

ETERNAL WAR – COMBAT PATROL
INCISIVE ATTACK

MISSION BRIEFING
Two forces have dug in and fought to a stalemate. Adopting an approach to the war, opportunistic bands of warriors now venture forth into no man's land to seize vital ground by deftly outflanking and defeating the enemy with surgical assaults across the front.

Mission Rules
Sweep and Clear: In this mission, if you control an objective marker at the end of your Command phase, it remains under your control, even if you have no models within range of it, unless your opponent controls it at the end of any subsequent phase.

PRIMARY OBJECTIVES
Victory points are awarded for controlling objective markers, as follows:

Take and Hold (Progressive): At the end of each player's Command phase, the player whose turn it is scores 5 victory points for each of the following conditions they satisfy (for a maximum of 15 victory points):

- They control one or more objective markers.
- They control two or more objective markers.
- They control more objective markers than their opponent controls.

This primary objective cannot be scored in the first battle round.

SECONDARY OBJECTIVES
In this mission, when the players are selecting their secondary objectives, they can, if they wish, choose for one of them to be Surgical Assault, below.

Surgical Assault (Progressive): Score 5 victory points if you control the objective marker in your opponent's deployment zone at the end of your turn.
BATTLEFIELD SUPREMACY

ENGAGE ON ALL FRONTS

Progressive Objective

Score 3 victory points at the end of your turn if you have one or more units from your army wholly within three different table quarters, and those units are all more than 6” from the centre of the battlefield. Score 3 victory points instead if you have one or more units from your army wholly within each table quarter, and those units are all more than 6” from the centre of the battlefield.

LINEBREAKER

Progressive Objective

Score 4 victory points at the end of your turn if two or more units from your army (excluding AIRCRAFT) are wholly within your opponent’s deployment zone.

DOMINATION

Progressive Objective

Score 3 victory points if you control more than half the total number of objective markers on the battlefield at the end of your turn.

SHADOW OPERATIONS

INVESTIGATE SITES

Progressive Objective

Score 3 victory points each time a unit from your army successfully completes the following action: Investigate Site (Action): One INFANTRY unit (excluding CHARACTERS) from your army can start to perform this action at the end of your Movement phase if it is within 6” of the centre of the battlefield and no enemy units (excluding AIRCRAFT) are within 6” of the centre of the battlefield. The Action is completed at the end of your turn.

REPAIR TELEPORT HOMER

Progressive Objective

Score 5 victory points each time a unit from your army successfully completes the following action: Repair Teleport Homer (Action): One INFANTRY unit from your army can start to perform this action at the end of your Movement phase if it is wholly within your opponent’s deployment zone. The Action is completed at the end of your next Command phase provided the unit attempting it is still wholly within your opponent’s deployment zone.

RAISE THE BANNERS HIGH

Progressive and End Game Objective

If you select this objective, then units in your army can perform the following action: Raise Banners (Action): One or more INFANTRY units from your army can start to perform this action at the end of your Movement phase. Each unit from your army that starts to perform this action must be in range of a different objective marker that does not have one of your banners raised upon it (see below). A unit cannot start this action while there are any enemy units (excluding AIRCRAFT) in range of the same objective marker. The Action is completed at the end of your turn. If this Action is successfully completed, that objective marker is said to have one of your army’s banners raised on it (the banner is “removed” if your opponent controls the objective marker at the start of any phase). You score 1 victory point at the end of each of your Command phases, and 1 victory point at the end of the battle, for each objective marker on the battlefield that has one of your banners raised upon it.

WARPCRAFT

MENTAL INTERROGATION

Progressive Objective

Score 3 victory points each time you successfully complete the following psychic action: Mental Interrogation (Psychic Action – Warp Charge 4): One PSYKER CHARACTER from your army can attempt to perform this psychic action in your Psychic phase if it is within 18” of any enemy CHARACTER models.

PSYCHIC RITUAL

End Game Objective

Score 15 victory points at the end of the battle if any unit from your army successfully completed the following psychic action 3 times during the battle: Psychic Ritual (Psychic Action – Warp Charge 3): One PSYKER CHARACTER unit from your army can attempt to perform this psychic action in your Psychic phase if it is within 18” of the centre of the battlefield.

ABHOR THE WITCH

End Game Objective

You cannot select this secondary objective if your army includes any PSYKER units. Score 5 victory points at the end of the battle for each enemy PSYKER CHARACTER that is destroyed, and 3 victory points for every other enemy PSYKER unit that is destroyed.
SECONDARY OBJECTIVES

When you are instructed to select secondary objectives, you can select from any presented here, in addition to any secondary objective listed on the mission you are playing.

You can score no more than 15 victory points from each secondary objective you select during the mission (any excess victory points awarded are discounted).

Each secondary objective listed below has a category (e.g. Purge the Enemy). When you select secondary objectives, you cannot choose more than one from each category.

PURGE THE ENEMY

ASSASSINATE

End Game Objective

Score 3 victory points at the end of the battle for each enemy Character model that is destroyed.

BRING IT DOWN

End Game Objective

Score 2 victory points at the end of the battle for each enemy Monster or Vehicle model with a Wounds characteristic of 10 or less that is destroyed, and 3 victory points for each enemy Monster or Vehicle model with a Wounds characteristic of 11 or more that is destroyed.

TITAN SLAYERS

End Game Objective

Score 10 victory points at the end of the battle if one enemy Titanic model is destroyed, or 15 victory points if two or more enemy Titanic models are destroyed.

SLAY THE WARLORD

End Game Objective

Score 6 victory points at the end of the battle if the enemy Warlord is destroyed.

NO MERCY, NO RESPITE

THIN THEIR RANKS

End Game Objective

If you select this objective, keep a tally of kill points; each time an enemy model is destroyed, add 1 to this tally (add 10 to this tally instead if the model that was destroyed had a Wounds characteristic of 10 or more). A model can, if it is resurrected for any reason (i.e. it was destroyed and subsequently returned to the battlefield), potentially add several points to this tally (assuming it is resurrected and subsequently destroyed several times over). At the end of the battle, divide your kill points tally by 10 and round down – the result is the number of victory points you score.

ATTENTION

Progressive Objective

Score 4 victory points at the end of the battle round if more enemy units than friendly units were destroyed this battle round.

WHILE WE STAND, WE FIGHT

End Game Objective

If you select this objective, then before the battle you must identify which three models from your army (excluding models with the Fortifications Battlefield Role) have the highest points value, and make a note of them on your army roster (if two or more are models tied, you can choose between them). If your army has three or fewer models, then you instead identify all the units in your army. A model’s points cost includes the points of all weapons and wargear it is equipped with. You score 5 victory points for each of these models that are on the battlefield at the end of the battle.

FIRST STRIKE

End Game Objective

Score 5 victory points at the end of the battle if any enemy units were destroyed in the first battle round, and score an additional 3 victory points if more enemy units than friendly units were destroyed in the first battle round.
15. ENDING THE BATTLE
The battle ends after five battle rounds have been completed. If one player has no models remaining in their army at the start of their turn, the other player may continue to play out their turns until the battle ends.

16. DETERMINE VICTOR
At the end of the battle, the player with the most victory points is the winner. If players are tied, the battle is a draw.

Each player can score a maximum of 45 victory points from primary objectives and a maximum of 45 victory points from secondary objectives (from a maximum of 15 victory points from each of the 3 secondary objectives you have selected), for a total of 90 possible victory points from mission objectives (any excess victory points awarded are discounted). If every model in a player’s army was painted to a Battle Ready standard, that player is awarded a bonus 10 victory points. This gives the player a maximum total score out of 100 victory points.

MISSION OBJECTIVES
During the battle, players can earn victory points by achieving mission objectives. There are two types of mission objectives: primary and secondary.
Primary mission objectives are described in the mission’s Mission Briefing.
Secondary mission objectives are chosen by each player after the mission has been determined and the armies have been revealed. In either case, mission objectives can either be ‘End Game’ or ‘Progressive’. End Game mission objectives are scored at the end of the battle. Progressive mission objectives are scored during the battle (exactly when is detailed on the objective itself), and can be achieved and hence award victory points several times.
10. Units from their army in a location other than the battlefield, they must use such Stratagems now, and which of their units will start the battle embark within Transport models (they must declare what units are embarked on what model). When both players have done so, they declare their selections to their opponent.

No more than half the total number of units in your army can be Strategic Reserve and/or Reinforcement units, and the combined points value of all your Strategic Reserve and Reinforcement units (including those embarked within Transport models that are Strategic Reserve and/or Reinforcement units) must be less than half of your army’s total points value, even if every unit in your army has an ability that would allow them to be set up elsewhere.

In Eternal War missions, Strategic Reserve and Reinforcement units can never arrive on the battlefield in the first battle round. Any Strategic Reserve or Reinforcement unit that has not arrived on the battlefield by the end of the third battle round counts as having been destroyed, as do any units embarked within them (this does not apply to units that are placed into Strategic Reserves after the first battle round has started).

11. DEPLOY ARMIES
The players alternate setting up their remaining units, one at a time, starting with the Defender. A player’s models must be set up wholly within their deployment zone. If one player finishes deploying all their units, their opponent then deploys the remainder of their units.

If a model from your army is so large that it cannot physically be set up wholly within your deployment zone (i.e. the smallest dimension of that model is greater than the depth of your deployment zone), it must be set up so that it is touching your battlefield edge. In the first battle round, that model’s unit cannot do any of the following: make a Normal Move, Advance, Fall Back, attempt to manifest or deny psychic powers, make any attacks with ranged weapons, declare a charge, perform a Heroic Intervention, perform any actions or psychic actions. Models in such units count as having moved a distance in inches equal to their Move (M) characteristic in their first Movement phase. If the unit has a minimum Move characteristic, it counts as having moved its maximum Move characteristic.

If both players declare models that allow them to be set up ‘after both armies have deployed’, the players must roll off after all other units have been set up and alternate setting up these units, starting with the winner.

12. DETERMINE FIRST TURN
The players roll off. The winner declares whether they will take the first or second turn.

13. RESOLVE PRE-BATTLE ABILITIES
Players alternate resolving any pre-battle abilities units in their army may have, and resolving any Stratagems that are used before the battle (excluding those that upgrade their units or those that enable them to set up a unit in a location other than the battlefield), starting with the player who will take the first turn.

14. BEGIN THE BATTLE
The first battle round begins. Players continue to resolve battle rounds until the battle ends.

Ending the Battle Early or Conceding
Ideally, a battle should always be played until the end. On occasion, though, one or both players may not be able, or may not wish to, complete the battle.

If you and your opponent both agree to end the battle early, then you can end the battle at a mutually agreed point (we suggest at the end of a battle round). You and your opponent can then calculate your final victory points totals, taking into account any objectives achieved, to determine the victor.

If only one player wants to end the battle early then that player must concede and remove all their models from the battlefield. A player who concedes scores 0 victory points for that battle and their opponent is automatically the victor (even if they scored 0 victory points during the battle). The other player may continue to play out their turns until the battle ends if they wish, perhaps to accrue a few more victory points, or they can choose to end the battle now.
4. READ MISSION BRIEFING
Each mission has a mission briefing that will detail the primary objectives that award victory points to the players. Some missions may also include one or more secondary objectives that players can choose to select during the Select Secondary Objectives step. Some mission briefings also list one or more mission rules that will apply for the duration of the battle. The players should read and familiarise themselves with these before proceeding.

5. PLACE OBJECTIVE MARKERS
The players set objective markers up on the battlefield. Each mission’s deployment map will show the players how many to set up, and where each should be placed.

6. CREATE THE BATTLEFIELD
The players create the battlefield and set up terrain features. Missions are played on rectangular battlefields. The size of your battlefield depends on the battle size you have selected, as shown in the table below (the table shows the minimum size of battlefields):

7. SELECT SECONDARY OBJECTIVES
Each player then secretly selects three secondary objectives for the battle and writes them down. Each can award victory points to the player who chose them. The secondary objectives that players can choose from can be found on pages 284-285, though some missions will include secondary objectives that players can also choose from. Once both players have selected their secondary objectives, they reveal their selections to their opponent.

8. DETERMINE ATTACKER AND DEFENDER
The players roll off and the winner decides who will be the Attacker and who will be the Defender.

9. CHOOSE DEPLOYMENT ZONE
The Defender now selects one of the deployment zones for their army. Their opponent uses the other deployment zone.

10. DECLARE RESERVES AND TRANSPORTS
These missions use the Strategic Reserves rules (pg 256).

Both players now secretly note down on their army roster which of the units in their army will start the battle in Strategic Reserves, which of their units will start the battle in a location other than the battlefield (if a player has access to any Stratagems that enable them to set up...
ETERNAL WAR MISSION PACK

ETERNAL WAR battle is waged by following the sequence below:

1. SELECT BATTLE SIZE
   The players must first select the battle size they wish to play: Combat Patrol, Incursion, Strike Force or Onslaught. The table below gives a rough guide of how long each should take.

<table>
<thead>
<tr>
<th>BATTLE SIZE</th>
<th>BATTLE DURATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Combat Patrol</td>
<td>Up to 1 hour</td>

<tr>
<td>Incursion</td>
<td>Up to 2 hours</td>
</tr>
<tr>
<td>Strike Force</td>
<td>Up to 4 hours</td>
</tr>
<tr>
<td>Onslaught</td>
<td></td>
</tr>
</tbody>
</table>

2. MUSTER ARMIES
   Each player must then select a Battle-forged army. The points limit of each player’s army, and the number of Command points each player starts with when they begin mustering their army, are shown in the table below:

<table>
<thead>
<tr>
<th>ARMY</th>
<th>POINTS LIMIT</th>
<th>COMMAND POINTS</th>

</tbody>
</table>

Details of how to Battle-forg an army can be found on page 244. Details of how to use a points limit can be found on page 241. Details of how to select a WARRIOR and what information your army roster must contain can be found on pages 238 and 251 respectively. You cannot include any Understrength units in your army. All of the units in each Detachment in your Battle-forged army must have at least one Faction keyword in common, and this keyword cannot be CHAOS, IMPERIUM, AELDARI, YNNARI or TYRANIDS, unless the Detachment in question is a Fortification Network (this has no effect on your Army Faction). If you are playing a Combat Patrol battle, the only Detachment your army can include is one Patrol Detachment (pg 248), unless your Army Faction is IMPERIAL KNIGHTS or CHAOS KNIGHTS, in which case the

Details of all other units and formations included in the game are available in the Codex: Genestealer Cults (pg 250).

3. DETERMINE MISSION
   The players determine which mission will be used for the battle; they can choose from the missions for their chosen battle size. This will determine the deployment map that the players use, as well as the specific mission briefing. You can either simply agree with your opponent which you will use, or you can roll to randomly select a mission using one of the following tables:

In this mission, if you control an objective marker labelled A at the end of your Command phase, it remains under your control, even if you have no models within range of it, unless your opponent controls it at the end of any subsequent phase.

PRIMARY OBJECTIVES
Victory points are awarded for controlling objective markers, as follows:

Domination (Progressive): At the end of each player’s Command phase, the player whose turn it is scores 5 victory points for each of the following conditions they satisfy (for a maximum of 15 victory points):

- They control two or more objective markers.
- They control three or more objective markers.
- They control more objective markers than their opponent controls.

Score 8 victory points instead if you control all four objective markers that are in deployment zones.
ETERNAL WAR – ONSLAUGHT

Mission Rules

RETRIEVAL MISSION

MISSION BRIEFING
The battlefield is strewn with discarded equipment, supplies and other detritus of war that, for various reasons, you wish to recover. You must recover as many of these vital objectives as you can without sustaining unacceptable casualties in the process.

PRIMARY OBJECTIVES
Victory points are awarded for controlling objective markers, as follows:

Take and Hold (Progressive): At the end of each player Command phase, the player whose turn it is scores 5 victory points for each of the following conditions they satisfy (for a maximum of 15 victory points):

Minimize Losses (End Game): At the start of the battle, add up the number of units in your army – this is your army’s Strength. If a unit splits to form two or more individual units during the battle, then immediately decrease your army’s Strength accordingly (e.g. if one unit in your army splits to form three individual units, your army’s Strength is increased by 2). If a unit merges with another to form a combined unit during the battle, then decrease your army’s strength accordingly (e.g. if two units from your army merge to form one unit, you immediately decrease your army’s strength by 1). At the end of the battle, add up how many units from your army are left on the battlefield, including all units embarked within Transports, but excluding all units that have been added to your army during the battle. If the total is 75% or more of your army’s Strength, score 15 victory points; if the total is less than 75%, but is 50% or more of your army’s Strength, score 10 victory points; if the total is less than 50%, but is 25% or more of your army’s Strength, score 5 victory points.

For the purposes of this objective, a unit can only count as being wholly within 6” of one battlefield edge at a time – if a unit is within 6” of two battlefield edges because it is in the corner of the battlefield, you can select which battlefield edge it counts as being wholly within 6” of at the end of your turn.
